

Sculpture Basics: Techniques for Creating Form and Space

IN STUDIO CLASS

Fall Term: (7 weeks)

Day/Time TBD - Seven 2-hour sessions

Skill level: All

All materials provided

Drop-ins Welcome First Session Only

Using basic techniques and materials, Martin helps you create dynamic forms and spaces. Each technique builds on the previous preparing you to create larger, more complex forms.

The wire armature is a flexible line drawing in space that defines the planes of your final sculpture. Manipulate these lines to gain a more intimate understanding of your piece.

Martin's methods are both playful and enlightening. He encourages experiments and mistakes that result in surprising discoveries as you complete your sculpture.

Bring sketchbook, apron, disposable gloves and imagination. No previous experience necessary.

Price: Member \$180 + \$15 materials fee | Non-Member \$250 + \$15 materials fee
